I. Basis of the report

1. With regard to the **elements** of the international application (*Replacement sheets which have been furnished to the receiving Office in response to an invitation under Article 14 are referred to in this report as "originally filed" and are not annexed to this report since they do not contain amendments (Rules 70.16 and 70.17)*):

Description, Pages

1-13 as originally filed

Claims, Numbers

1-18 as originally filed

2. With regard to the **language**, all the elements marked above were available or furnished to this Authority in the language in which the international application was filed, unless otherwise indicated under this item.

These elements were available or furnished to this Authority in the following language: , which is:

- ☐ the language of a translation furnished for the purposes of the international search (under Rule 23.1(b)).
☐ the language of publication of the international application (under Rule 48.3(b)).
☐ the language of a translation furnished for the purposes of international preliminary examination (under Rule 55.2 and/or 55.3).

3. With regard to any **nucleotide and/or amino acid sequence** disclosed in the international application, the international preliminary examination was carried out on the basis of the sequence listing:

- ☐ contained in the international application in written form.
☐ filed together with the international application in computer readable form.
☐ furnished subsequently to this Authority in written form.
☐ furnished subsequently to this Authority in computer readable form.
☐ The statement that the subsequently furnished written sequence listing does not go beyond the disclosure in the international application as filed has been furnished.
☐ The statement that the information recorded in computer readable form is identical to the written sequence listing has been furnished.

4. The amendments have resulted in the cancellation of:

- ☐ the description, pages:

Ad section V

1. Reference is made to the following documents:

D1: WO-A-9719959
D2: JP(A) 2001294608
D3: JP(A) 2001302716
D4: JP(A) 11166009
D5: WO-A-9628480
D6: WO-A-9928353
D7: WO-A-9743323

2. The document D1 discloses in example 4D9 a supported metallocene catalyst being the contact product of a silica support, an aluminoxane, a hydroxyphenylborate and a metallocene. All these components of the catalyst systems are those required for the preparation of the present catalyst.
Therefore it is considered that D1 is novelty destroying for the present claims 11-15 and 16 (if considered that the ionic compound is the contact product of the borate, silica and metallocene) with regard to Article 33(2) PCT.
3. The documents D2-D4 are considered similarly as for D1, as novelty destroying at least for the claims 11-16 with regard to Article 33(2) PCT.
4. The scope of the claims 1-10 is being considered as novel and involving an inventive step, as the cited prior art is not clearly disclosing the claimed process nor can it give any hint for it)Article 33(2+3) PCT.
5. Industrial applicability is acknowledged (Article 33(4) PCT).
